

## LION ONE RESUMES EXPLORATION AND DEVELOPMENT AT THE TUVATU GOLD PROJECT IN FIJI

North Vancouver, B.C., May 30, 2021 - Lion One Metals Limited (TSX-V: LIO) (OTCQX: LOMLF) (ASX: LLO) ("Lion One" or the "Company") is pleased to announce that exploration and development activities at the Tuvatu gold project in Fiji have resumed following recently instituted COVID-19-related lockdowns across the country.

Lion One Managing Director Stephen Mann commented "Many parts of Fiji have been under lockdown in recent weeks and we are grateful to the various agencies of the Fiji Government such as the Mineral Resources Department, and the Ministry of Commerce, Trade, Tourism and Transport in their efforts to mitigate the effects of the COVID-19 pandemic. Their quick response time has enabled the Lion One exploration team to return to Tuvatu where we are operating six drill rigs, and our analytical team to our geochemical and assay laboratory located at our Fiji headquarters near the Nadi international airport".

### About Lion One Metals Limited

Lion One's flagship asset is 100% owned, fully permitted high grade Tuvatu Alkaline Gold Project, located on the island of Viti Levu in Fiji. Lion One envisions a low-cost high-grade underground gold mining operation at Tuvatu coupled with exciting exploration upside inside its tenements covering the entire Navilawa Caldera, an underexplored yet highly prospective 7km diameter alkaline gold system. Lion One's CEO Walter Berukoff leads an experienced team of explorers and mine builders and has owned or operated over 20 mines in 7 countries. As the founder and former CEO of Miramar Mines, Northern Orion, and La Mancha Resources, Walter is credited with building over \$3 billion of value for shareholders.
